PROFILE

Experienced Software Engineer with a trajectory from digital marketing to full-stack web development. Proficient in JavaScript, React, Node.js, MySQL, and CSS. Successfully developed "Petree", showcasing a robust full-stack solution. Holding an MBA, I merge technical expertise with business acumen, crafting software that resonates with users and aligns with business objectives. Having transitioned roles and industries, my adaptability is a testament to my commitment to continuous learning and growth. Eager to leverage my skills and experiences in the next exciting opportunity.

EXPERIENCE

Junior Software Engineer | Bhoomi Design Studio
OCT 2018 – DEC 2019, COLOMBO, WESTERN PROVINCE, SRI LANKA

- Adapted to new technologies swiftly in a dynamic work environment.
- Utilized Bootstrap, JavaScript, and CSS to create and design web interfaces.
- Crafted responsive sites ensuring optimal user experiences across various devices and screen sizes.
- Communicated technical concepts effectively to non-technical stakeholders, bridging knowledge gaps.
- Ensured successful project completion by effectively planning and executing software solutions, resulting in high customer satisfaction.

Software Engineer-Intern | Jetwing Travels
JAN 2017-JUN 2017, COLOMBO, WESTERN PROVINCE, SRI LANKA

- Developed the front end using Angular, Bootstrap, and CSS, elevating the UI/UX experience.
- Managed version control and team collaboration using Tortoise SVN.
- Hosted web projects using the GoDaddy platform.
- Performed exploratory manual testing, simulating user behavior to identify potential issues.
- Authored user manuals, offering clarity on software features for end-users.
- Participated in team projects and resolved challenges through collective problem-solving.

OTHER EXPERIENCE

Marketing & Administrative Assistant | Vancity Cleaning Service
MAR 2021 – JAN 2023, SURREY, BC, CANADA

- Designed digital marketing strategies to enhance online presence.
- Maintained and developed the company's WordPress website with SEO.
